Cave

Sale will be livestreamed on Bidr: www.bidr.co.nz

FORWARD

The Waterton Sheep Stud was established in 1960, by the late Peter Hampton on 6 South Suffolk ewe lambs. In 1970 Peter imported 6 Suffolk ewes from Australia to start the Suffolk Stud. In 2010, Peter and Chris established the Charollais Stud.

In 2022, Elizabeth, after working in the UK, imported into New Zealand Kerry Hill embryos to start the Belmont Kerry Hill NZ flock, so the third generation to venture into new sheep breeding.

Waterton, situated between the Ashburton and Hinds rivers on the coast of Mid Canterbury was home for the sheep stud until 2008, when Chris and Annabelle moved to Belmont Station, an 816ha rolling to steep sheep and beef property at Cave, South Canterbury. We also lease another 118ha property next door.

Belmont carries 6500su and ranges from 165m to 550m above sea level. This is a great testing ground for the 450 Stud ewes, which are treated like the other commercial ewes.

Our Breeding objectives are to breed

- structurally sound, well balanced rams.
- hardy rams which survive (all sire AA Cold Tolerance)
- High growth rates
- Plenty of meat (have been eye muscle scanning for 30years)
- High SIL performance

We use a balance of all the above attributes so you can be confident the Waterton Ram you purchase will perform well for many years.

All our flocks have been recorded on SIL for over 20 years. We use a lot of syndicate rams, which not only gives us the ability to use rams from around the country, but also helps with the reliability of our SIL figures.

Most years, we use a ram or rams which have been used in the Beef & Lamb CPT Trial.

We have also had one Charollais and two Suffolk rams in the Duncraigen trial. In the 2023 Trial, we had one of each breed with the Waterton Suffolk producing the highest pre slaughter weight of lambs, which went on to be the heaviest carcass weight lambs also. The Waterton Charollais ram had the second heaviest carcass lambs. There were 53 rams trialled in 2023. So, it proves that if you want growth rates and carcass weights, Waterton Rams are for you!

All Sires are DNA tested at Lincoln for Footrot resistance, with all South Suffolks used having 1:2 foot score and Suffolks used having 2:3 or 3:3

Cold Tolerance with all Sires being A:A

This makes all the Waterton Sheep Studs not only well connected to each other and the respective Breeding groups but well connected to the whole sheep industry, leading to the reliability of our figures being very high.

So you can be confident the Waterton ram you purchase will perform for you as expected.

SUFFOLK SIREs

COLLIE HILLS 81/21 - We purchased this ram at the 2022 Canterbury Stud Ram fair in syndicate with Dry Creek Suffolks and Karendale Suffolk Stud for \$17,000. This was a record price for a Suffolk ram sold at auction in NZ. He was judged by the Suffolk breeders (popular vote judging) as the best Suffolk ram on offer at the Ram Fair. 81 is a medium framed ram with a good Suffolk head, nice shoulder and very good loin. A strong hindquarter and strong on his legs. We have retained one son.

WATERTON 680/21 - We sold a half share in this fellow to Snowdon Suffolk Stud. We only mated him to 20 Suffolk ewes, of which he produced 8 sons in this year's sale, including Lots 1, 3 and 4. He has bred lambs with plenty of growth, which have scanned very well. He has put his mark on all his progeny with a real dark, strong Suffolk head. He was also mated to 6 Charollais and Charollais X ewes. Check out lot 64. He is currently in the AI centre getting collected for the USA and South Africa. Foot Score 3:2

WATERTON C505/18 - We retained this fellow as he was the heaviest ram at scanning, with the 2nd largest EMA for his year. Out of one of Elizabeth's original old ewes, he was an outcross with a real Suffolk head and has consistently bred some of the best scanning rams. Foot Score 3:3

WATERTON H498/18 - We sold a ½ share in this fellow to Malcolm Irvine of Brightwater at the 2019 Sale. He is a modern Suffolk, not the biggest sheep but well balanced. He was the top scanner of all breeds for his year. He has bred very well in both flocks. He has bred very well in both flocks, with the first 3 in this year's catalogue all sired by him. Foot score 2:3

WATERTON 410/22 – We used him as a hogget. He was sired by Collie Hills 285/20. His mother, 1/19 is one of our best ewes who we have retained her lamb from 2023 as a Stud Sire. 410 was one of the best scanners for his year and like his sire is very deep with plenty of bone.

SOUTH SUFFOLK SIREs

All South Suffolk Sires have a 1:2 Footscore

WATERTON 267/21 - This is the first drop of rams from this ram. We first noticed the fellow at tailing when we picked him up. He was a solid brick, and he just kept growing. He is a modern South Suffolk, with a big barrel, deep loin and well filled hindquarter and very good bone. His sons are just like him.

CRAIG ANNAT 810/19.(Jim) We purchased this fellow in conjunction with Pine Grove South Suffolk Stud at Gore Ram Fair. Bred by Jim Berney at Owaka, right on the coast. The ram is a total outcross, medium framed with plenty of meat. He has passed these attributes on to his sons. Footscore 1:2

CHAROLLAIS

WATERTON B354/17 – We sold a ½ share of this ram for \$3500 to the Punchbowl Suftex Stud. He is breeding very well both physically and on SIL where he is still in the top 10 Sires on the NZ Charollais Across Flock. He represents Charollais Genetics NZ in last year's CPT Trial. Foot Score 1:4. We have just exported semen to Canada from this fellow and he has been used in 5 other flocks in New Zealand also. At 7 years old he is still going strong.

CHAROLLAIS NZ 59/17. We bought this ram for his exceptional growth rate and clean shoulder. He is a complete outcross as he is bred from imported semen from the UK. He has a very low SIL index as his father (UK) was not SIL recorded. So will improve as he gets more progeny. Foot Score 1:1

CHAROLLAIS NZ 23/20. We purchased this fellow as an outcross. His AI Sire, UK 4539/18 had an exceptional hindquarter, which he passed onto his son 23/20, who has passed this trait onto his sons too. Check out the hind quarter of Lot 51 (his son).

The Charollais Suffolk Cross gives the best of both worlds with the Suffolk's growth and dark head and the Charollais's hindquarter.

Sheep Improvement Limited (SIL) Glossary

Production Indexes

All indexes are an estimate of the genetic merit of each ram as a sire for each trait or combination of traits compared to other rams in this catalogue. They are expressed in cents to show the financial benefit of this genetic merit. Genetic merit is cumulative and compounding (like compound interest at the bank).

NZTW	The New Zealand Terminal Worth index is an estimate of genetic merit for Growth, Meat Yield and Survival .
Meat	The SIL Terminal Sire Meat Yield index represents estimated meat yield adjusted for carcass weight.
Growth	The SIL Terminal Sire Growth index represents estimated growth to autumn

Breeding Values

Breeding values are expressed in the units the trait is measured in and are an estimate of the value of the ram's genetic merit for the trait compared to other rams in the analysis.

WWT = weaning weight (kg) LW8 =

autumn liveweight (kg)

EMAC = eye muscle area adjusted for carcass weight (cm²)

Rank

The rank represents the rank from the animals recorded as alive in the flock at weaning

Date:	Weaned	13/12/2023
	Scanned	12/03/2024

PGGW: Simon Eddington – 027 590 8612

RLL: Aaron McCall – 027 685 5702

Conditions of The Auction Sale

1. Sale will be conducted by Hazlett Limited in accordance with the conditions of sale as set down by the New Zealand Stock & Station Agents Association, copy of which is exhibited at the sale venue.
2. Sheep will be offered as catalogued, subject only to final draft.
3. All intending purchasers must register prior to commencement of sale.
4. Each lot shall become the property and responsibility of the purchaser on the close of the sale.
5. Terms will be strictly cash before taking delivery of any animal unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of the sale shall bear interest at current rates per annum from date of purchase.
6. Sale will be conducted GST exclusive.
7. Purchasers must give complete delivery instructions to the office using one of the delivery instruction sheets in the back of the catalogue and receive delivery docket before removing the animals.
8. The description of the sheep in the sale are supplied by the individual vendor who alone is responsible for their accuracy.
9. The vendor reserves the right to alter the order of sale.
10. If a ram requires a stud transfer the minimum price of \$2000 will be incurred or the knockdown price at the fall of the hammer, whichever is the highest.
11. If a Syndicate of buyers purchase a ram the minimum price of \$3000 will be incurred or the auction price whichever is highest.
12. Under OSH regulations all visitors must take care and responsibility on sale day for their own safety.

13. In the event of a Ram proven unsound & not suitable to service (veterinary check) a replacement ram will be provided by the vendor alternatively a credit against the following years purchase to the same value will apply
14. Grazing will be provided for all Rams purchased free of charge until the 10th of January 2025. Any grazing required after that date will be at cost to the purchaser of \$10.00 per week per head.
15. Overseas Export
 - a) Prior to auction – Purchasers who wish to export the animal/s (“Export Purchasers”) must advise the auctioneers at least 2 hours prior to the sale commencing that they are considering purchasing specific breeds at the auction. The Auctioneers will then advise the vendors of relevant breeds that their animals are being considered for export. Vendors not wishing to have their animals considered for export are to advise auctioneers.
 - b) Purchase at auction by Export Purchasers is conditional upon the animal/s purchased passing all relevant export protocol and testing (conducted at the Export Purchasers expense). Full payment (plus GST) will be made at the fall of the hammer to the auctioneers as per usual terms and conditions. Payment will be held by Auctioneers until the animal/s leave New Zealand. Payment will be refunded to the Export Purchaser less all associated export costs for any animal/s purchased failing export protocol and testing.
 - c) If a ram is purchased for export, the minimum price of \$3000 will be incurred or the auction price whichever is highest.

SIL GE Date	15 November	NZGE No.	41943	No. Flocks in GE	1439	
Comments : Check this ram out! He may only be 88% Charollais but he has all the Charollais characteristics-clean shoulder, deep body and great hindquarter. He was the top scanning Charollais with a 22 EMA and a liveweight of 55.5kgs. Will breed lambs with very good growth and high yielding carcasse.						

Lot No : 48		Waterton - 97% Charollais

Comments : Look at this ram. We tried out this mating of a Suffolk Ram (680/21) to a Suffolk x Charollais ewe. Look what we got. The top scanner with an EMA of 26 with plenty of growth. Weaned at 43.5kgs, scanned at 73kgs. Pretty impressive for a twin. And he looks the part, full of meat with a real black head. He is also the highest SIL ranked ram we have ever bred with an index of 2174.
